US 12, Dane County
Whitney Way to I-39/90
Madison

Update Date: **April 15, 2022**

Project Weekly Update **(Madison Beltline Construction)**

General Project Information –

WisDOT is making the following improvements on the eastbound Madison Beltline (US 12) between Seminole Highway and Fish Hatchery Road.

- Extension of the auxiliary lane between the Todd Drive off-ramp and Todd Drive on-ramp.
- Widening of the eastbound bridge over Todd Drive for the auxiliary lane extension.
- Upgrades to traffic signal equipment for a portion of the South Frontage Road and Todd Drive intersection.

Traffic Impacts:

- The Todd Drive on ramp to the eastbound Beltline and eastbound Fish Hatchery Rd exit ramp to northbound Fish Hatchery Rd are anticipated to be closed on April 20, 2022 from 7PM to 6AM. The westbound Todd Drive exit ramp is anticipated to be closed on April 20, 2022 from 7PM to 6AM. An inside single lane closure for the eastbound Beltline is anticipated for April 20, 2022 from Seminole Highway to Fish Hatchery Rd. The above closures are for overhead sign structure inspections.
- Todd Drive under the Beltline bridge is anticipated to be closed nightly starting April 19 through April 21 from 8pm to 6am for the existing bridge demo.

Please refer to the following website link for anticipated specific closure locations (<https://projects.511wi.gov/flexlane/closures/>). Please note that work is weather dependent and may be subject to change.

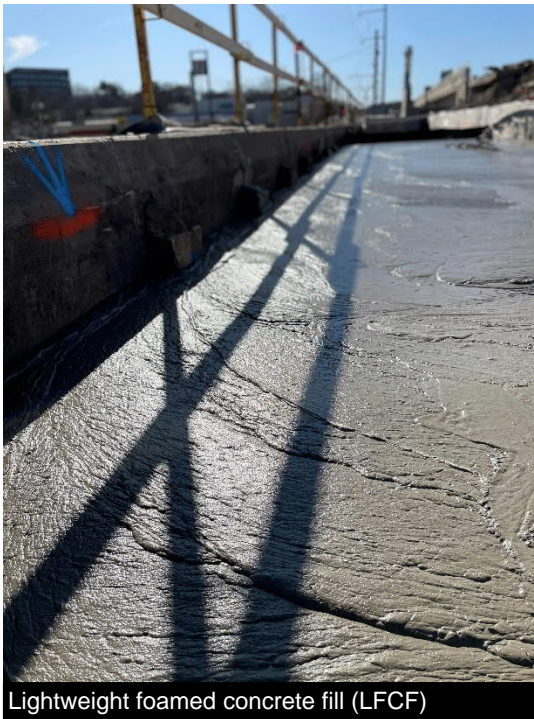

Testing of the newly installed Lane Control Signs (LCS) will be ongoing. LED lights will likely be visible on the LCSs when testing of the LCS's occur. At this time, the Flex Lane is not operational and WisDOT will provide additional information at a later date as to when the Flex Lane will become operational.

Work this week (week of 4/18/2022)

- Crews will continue retaining wall forming, rebar placement, and concrete placement operations.
- Crews will begin and complete the existing structure demo. At this time Todd Drive under the Beltline bridge is anticipated to be closed the nights of April 19 through April 21 from 8pm to 6am for the existing bridge demo.
- Crews will begin existing drainage cleanouts on the outside shoulders throughout the corridor.
- Crews will continue overhead sign structure inspections.

Work next week (week of 4/25/2022)

- Crews will continue retaining wall forming, rebar placement, and concrete placement operations.
- Crews will continue existing drainage cleanouts on the outside shoulders throughout the corridor.
- Crews will begin storm sewer installations along the Todd Drive auxiliary lane extension.
- Crews will resume pavement removal and excavation to subgrade operations along with aggregate placement at the Todd Drive auxiliary lane extension.
- Crews will resume 2021 punch list work throughout the corridor.

Lightweight foamed concrete fill (LFCF)

Lightweight foamed concrete fill (LFCF) placement.
